

Universal Split Platform

Single platform that is ready for a ramp or ladder

Designed for side door access, the Randall Floor Deployed Platforms FDP 3434R / 4334R are ramp or ladder ready when you order. No need to specify the orientation, the platform is ready to work in the parallel or perpendicular position with a 1000 lbs. working capacity.

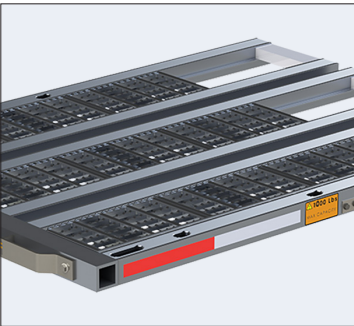

The platform stows and deploys quickly and is backwards compatible with existing Randall split platforms.

The platforms are available in 34 ½ and 43 inch widths with Randall’s aggressive walk surface.

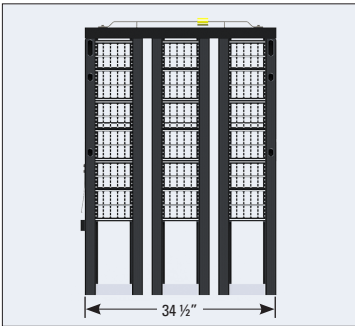

- Always ramp or ladder ready
- Ladders can be mounted to platform in all positions
- Randall’s signature walk surface – aggressive, gripping and all-weather
- 1 ½” space between panels allow the platform to be supported by trailer cross members, precluding undue stress on the trailer floor
